The Future of Transportation on the Lakewoods Campus

Justin Moor
President/CEO

A Safe and Innovative Way to Get Older Adults and Veterans Where They Need to Go on Campus

An Ideal Campus for a Self-Driving Vehicle

An Ideal Campus for a Self-Driving Vehicle

- 1. Simple $\frac{3}{4}$ Mile Loop Traffic Pattern**
- 2. Light Amount of Traffic**
- 3. Low 25 MPH Speed Limit**
- 4. Large Amount of People Needing Rides**

Lakewoods Campus Is Where Over 1,700 People Live, Work, and Play

400 Older Adults and Veterans Live

400 Employees Work

900 People Play/Visit

3 Biggest Expenses in Retirement

While many worry about the cost of health care as they age, transportation costs represent 16% of expenditures, while health care represents 13%.
