

**SMART TRANSPORTATION & INNOVATIVE MOBILITY
COMMITTEE
MEETING MINUTES
THURSDAY, FEBRUARY 16, 2023**

Attendees Present: Laurie Adams, Mike Gramza, Kim Hill, Tim O'Donnell, Meg Adams, Hans Rosebrock, Bob Kazmierczak, Edgar Avila, Mike Stormer, Meghan Gallagher, Andrew Bremer, Adam Greenslade, Rich Granger

TMACOG Staff Present: Dave Gedeon, Jodi Cole, Roger Streiffert

Call to Order – Laurie Adams welcomed everyone. Introductions were done around the room as well as those who attended virtually.

Minutes from November 17, 2022 – Laurie gave everyone a few moments to review the minutes and then asked for a motion to approve. Bob Kazmierczak made a motion, and it was seconded by Mike Gramza to approve the minutes as presented; the motion passed unanimously.

Electricity Production and Distribution – An Industry Perspective – Hans Rosebrock and Meg Adams from First Energy gave a presentation to the committee on the power grid and the impact of electric vehicle charging. Hans stated that the biggest problem will be with the generation side not the distribution side, in the future with the installation of DC Fast charge EV charging stations at homes. If those types of chargers were to be installed in a commercial setting that would not pose as great of an issue.

Electric Vehicle Charging Station Study Update and Scoping – Dave Gedeon talked to the committee about the need for an electric vehicle infrastructure site plan. As an MPO TMACOG can work with an ODOT consultant to prepare and produce the plan. Dave reviewed the scope of work that will be presented to ODOT for review and asked that the committee review and return any changes that they would like to see.

TMACOG FY 2024 Annual Work Program – Dave Gedeon reviewed the annual work program section for this committee. He outlined all of the work projects that will be undertaken during the next fiscal year.

Ongoing Projects, Programs, and Events – Kim Hill informed the committee that in conjunction with the Regional Growth Partnership he will be holding another transportation technology symposium at the Toledo Club in May. Once the details become final, he will forward to the committee.

Committee Roundtable Discussion – None at this time.

Next Meeting / Adjournment – Next meeting will be Thursday, May 18, 2023.
