

Annual Listing of projects with Obligated Federal Funding

Under federal law, TMACOG is responsible for producing an annual listing of federal funds that are obligated in the previous fiscal year. In fiscal year 2023 (July 1, 2022 to June 30, 2023), federal money obligated for transportation projects in Lucas and Wood counties was approximately \$130.5 million for 104 projects. Federally obligated means that federal funds were cleared to be used for certain projects. This does not mean that the project was under construction last fiscal year. Some of these obligated funds might be paying on debt to build infrastructure that has already been completed or these funds might be used for the first phases of a future project such as preliminary engineering or right-of-way acquisition. These projects include roadway, bridge, transit, pedestrian, and bikeway improvements. This listing includes federally funded projects only and does not include road projects funded separately by the state, cities, and villages.

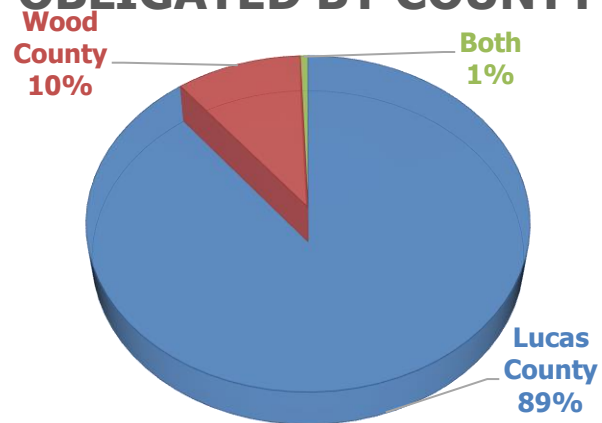

Obligated Federal Funding Breakdown by Project Type

Project Type	Federal Funding Obligated	Percentage of Federal Funds Obligated by Project Type
Roadways	\$71,385,330	54.6%
Bridges	\$17,771,045	13.6%
Transit	\$17,963,247	13.7%
Pedestrian and Bikeways	\$22,598,710	17.3%
Planning	\$799,244	0.6%
Total	\$130,517,577	100%
